Happy one year anniversary!

Message from the admin:

This is Eto, btw xD Wow, so it's been a year already... A year of procrastination, like what Azu said :X Well, we had a lot of ups and downs, but we managed to put it off and I couldn't have done it without all my precious staffs, even ones that just appeared once, because they at least made one release possible. :) Earlier, I was thinking of making SL retire, but now it's like a drug, I just can't stop it XD So addictive :P Probably because I also wanted to read the Japanese mangas I bought >.< lol Hopefully we'll make it through another year *chuckles* and we probably won't be release a lot this year since school started and I'm extremely busy, I don't have much free time yet I tried to fit this into my schedule, lol. Anyways, Happy anniversary to SL, and let's have another year of lazyness(us), never ending questions about when a certain series is going to come out which is starting to make me lose patience(=.=) and wonderful manga releases :]
